

St Martin's CE Curriculum Policy: Reading

Reading:

The greatest gift is a passion for reading!

Curriculum Intent

Through reading, children will be given opportunities to develop their decoding, fluency, and comprehension.

Reading is central to our ability to understand, interpret and communicate with one another.

Every child will read every day allowing them rich opportunities to listen and discuss, expand their vocabulary, develop their standard English and most of all understand and enjoy what they are reading.

Curriculum Aims

We want children to be able to:

- Ask questions, discuss, communicate understanding, and revise their ideas
- Give/explain the meaning of words in context
- Retrieve and record information/identify key details from fiction and non-fiction texts
- Summarise main ideas from more than one paragraph
- Make inferences from the text
- Predict what might happen
- Identify/explain how information/narrative content is related and contributes to meaning as a whole
- Identify/explain how meaning is enhanced through choice of words and phrases
- Make comparisons within the text

Lesson structure

We want reading to be an enjoyable experience. We believe that children learn best when there is a clear structure and purpose for the learning.

The Read Write Inc (RWI) phonics-based literacy scheme provides the basis for the teaching of reading to children during their first years in school.

In Nursery, children are introduced to sounds and participate in pre-reading activities which develop phonological awareness. When they are ready, children are introduced to letter sounds and begin to develop oral segmenting and blending skills.

This is built on in Reception and Key Stage 1 where children take part in daily phonics lessons. We aim for most children to know all the age-appropriate sounds by the end of Year 1 or by the end of Year 2 at the latest. At every stage of RWI, children are given books containing words they can sound out and read with the aim of them becoming 'speedy readers' at every level they work at.

When children have successfully completed the RWI programme they begin the 'SMART' approach to reading.

Daily reading lessons last 45 minutes. Each session will focus on developing one of the following skills: vocabulary, retrieval, summary, inference, prediction, explanation, authorial intent, comparison.

Children will practice these skills with both their class text and unfamiliar texts, including non-fiction and poetry.

At the beginning of each session, children should have the opportunity to clarify unfamiliar vocabulary.

Following this, children will be given an opportunity to read the text in pairs or independently to continue to develop their fluency. They will also identify any vocabulary they are unfamiliar with and/or any sections of which they are unsure. These gaps in understanding are followed up in the next part of the lesson.

After allowing time to read the text, the teacher will read sections of the text to model appropriate pace and expression while children follow the text.

During this shared reading session, staff will prompt children to think more deeply about what is being read by asking a range of questions.

After establishing a deeper understanding of the text, the teacher will model how to approach the comprehension task. Each day will have a specific reading domain focus. Children will then apply what they have learnt and answer a range of questions.

At the end of the session, teachers will provide children with the opportunity to reflect and discuss what they have been working on.

Planning and Resources

We use a variety of approaches to teach reading including RWI, Accelerated Reader and Literacy shed. Through this approach we ensure children cover all strands of the National Curriculum.

Curriculum Implementation

We teach reading as a discrete subject from Reception to Year 6. Children in Reception and Key Stage 1 have a daily RWI session where they are taught in closely monitored ability groups which are changed at least every half term. Once children have successfully completed RWI, they begin the 'SMART approach to reading.' This approach uses an age-appropriate class text, with related texts used during a unit of work to develop knowledge and skills in all genres.

In addition, we provide events across the year to promote a love of reading, including celebrating World Book Day, arranging author visits, and holding book fairs.

Assessment

Assessment is an integral part of the teaching of reading and is evident in every lesson. Staff make daily assessments based upon the work recorded in books, as well as observations of how well children are reading in lessons.

In June, the statutory phonics check is taken by all Year 1 children as well as any children from Year 2 who did not achieve the standard when they were in Year 1.

Statutory assessments (SATs) are also carried out at the end of Year 2 and Year 6.

To prepare children for the more formal SATs, we also use the assessment tests published by Rising Stars which are usually taken three times a year: towards the end of the Autumn, Spring and Summer terms.

Once RWI is completed, children are given time to practice their independent reading skills every day, choosing books from the Accelerated Reader (AR) Scheme. They regularly complete a Star reading assessment which gives them an approximate reading age and clearly identifies all the books that are at a suitable level for them to read.

Each time a child finishes reading an AR book they complete an online quiz to assess their understanding. Our goal is that every child will be able to read books which at least match their chronological reading age.

All the information collected from informal and formal testing allows teachers, alongside the subject leader, to assess progress towards any targets set during pupil progress meetings.

Children who are struggling to reach their targets will receive additional support through small group interventions or one to one support.

Inclusion

We teach reading to all children, whatever their ability. Reading lessons are planned to meet the expectations of each year group, and the individual needs of the children. Those working towards expectations will work on tasks that are adapted to suit their needs. Questions posed within the session provide opportunities for all children to be able to contribute.

Role of Subject Leader

- Ensure that the statutory requirements of the national curriculum for reading are met
- Ensure appropriate professional development opportunities are provided for all staff
- Monitor their subject to ensure consistency
- Ensure regular and appropriate assessment of reading takes place and have a clear overview of who is achieving age related expectations
- Ensure that children who are not making enough progress to achieve age related expectations have been identified, and appropriate interventions put in place to ensure they catch up
- Ensure appropriate resources are available
- Engage with outside agencies and online communities to keep up to date and become the expert in their chosen subject in the school
